Addendum Questions

Question #1

The RFP does not mention a presentation to the Historic Preservation Commission. Does the City anticipate the consultant interacting with the Historic Preservation Commission outside of the two public meetings?

Answer

There is no required or anticipated presentation or meeting with the Historic Preservation Commission. The consultant, as with the public, is welcome to attend a Commission meeting and speak during public input, but that time of the consultant would not be part of the contract and the city would not pay the consultant for attending.
