

## FINANCE DEPARTMENT MEMORANDUM

DATE: November 1, 2024  
 FROM: City of Greeley, Colorado  
 RE: 2025 Development Impact Fees

In the 2023 adoption of the Police, Fire, Park, Trails, Storm Drainage, and Transportation development impact fees, the methodology to adjust fees annually was adopted. City of Greeley Code Chapter 4.64.055(b) states that the fees will be recalculated by applying the Economic Adjustment Factor (EAF).

The EAF is determined on an annual basis, using six weighted data variables, considered to be representative of economic growth, the cost of materials and services associated with constructing capital projects, and general economic conditions. The variables include:

- Percent change in **Greeley Utility Customer Accounts** – representing the growth and scope of public services;
- Percent change in **CDOT Construction Cost Index** – representing the cost of providing transportation networks;
- Percent change in **Engineering News Records Construction Cost Index** – representing material costs associated with capital projects;
- Percent change in **Engineering News Records Building Cost Index** – representing labor costs associated with capital projects;
- Percent change in **Assessed Value of Greeley Real Property** – representing growth and the economic value of real property assets; and
- Percent change in **Greeley MSA Employment** – representing a general indicator of the economic health of the area.

The 2025 EAF was calculated using the most reliable and consistent annual data sets from the previous full year. Since the EAF is calculated on November 1, 2024, for the 2025 fee year, the percent change was calculated using year end 2023 compared to year end 2022.

2025 EAF – Weighting and Percent Change by Indicator							
	Greeley Utility Customers	CDOT CCI	ENR CCI	ENR BCI	Assessed Value	Greeley MSA Employment	Economic Adjustment Factor
Weight	25.0%	15.0%	5.0%	5.0%	25.0%	25.0%	
% change	9.18%	0.29%	7.84%	10.56%	18.55%	-0.20%	<b>7.85%</b>

2025 Development Impact Fee Schedule

For 2025, based on the methodology (applying the economic adjustment factor to the 2024 fee, rounding the result to zero decimals and comparing it to the 2024 fee), the Police, Fire, Park, Trails, Storm Drainage, and Transportation development impact fees will increase an average of 7.85%.

The Water and Sewer board establishes the Water and Sewer Plant Investment Fees (PIF), the equivalent to impact fees. These will be adopted in December.

The fee adjustment requires public notification approximately 120 days before the March 1, 2025 effective date. The fee changes by type of Development Impact Fee are presented on the attached schedule.
